- SP-100™ Stainfree Grouts are available in the above range of attractive colours. (▲)
- SP-100™ DUO & SP-100™ UNO Stainfree Grouts are available in the above range of attractive colours. (+)
- STELLAR™ Grout is available in selected colours. (*)
- LATAPOXY® 2000 Industrial Epoxy Grout is available in selected colours. (■)
- Grout shades are approximate guides only. Shades shown have been developed using LATICRETE® 600 Series Grout mixed with water.
- For porous tiles & stones, it is recommended to verify compatibility with a test area before installation commences.
- Actual shade and texture will depend on jobsite conditions.
- There may be a shade variation in different batches. It is advised to mix grout from different batches to get uniform colour.
- Shades with * mark will require minimum 10 days lead time for supply.

5 REASONS TO USE TILE SPACERS

1

Aesthetics – Spacers provide uniform spacing between tiles. When filled with suitable grout, makes tile assembly appealing.

2

No lippage – Spacers minimize lippage and chipping of tile corners is reduced.

3

Uniform spacing between tiles – Allows expansion & contraction of tiles, thus no cracking of tiles.

4

Efficient tiling - Use of spacers help in efficient tile laying, maintaining uniform levels. Eliminates readjusting or redoing of tiling.

5

No water seepage - Uniform tile spacing filled with SP-100™ TILE JOINT doesn't allow water seepage through tile gaps.

STELLAR™ Grout

STAINFREE Grouts

STELLAR™ Grout is a single component, high performance modified joint filling grout which offers excellent color uniformity, durability, stain protection, and beautiful grout joints in an easy-to-use, non-sag formula, with no hassle of mixing two packs or any other liquids like water or latex liquid.

SP-100™ Stainfree Grout For Floor N' Wall (700 Series) is a 100% solid epoxy grout that is stainfree, colour-fast chemical resistant for use with ceramic & vitrified tiles, marble and stone.

SP-100™ DUO Stainfree Grout For Floor N' Wall tile joint is a UV resist, stain resistant, water resistant & germ resistant grout for use with ceramic tiles, vitrified tiles, marble and stone, especially in stain prone areas such as kitchens and washrooms, internal & external areas.

SP-100™ UNO Stainfree Grout For Floor N' Wall is professional grade Ready-To-Use - No Mix Formula grout made of dispersion technology, designed for the grout joints width from 1 to 6mm with long lasting colour and stain protection, especially suitable for residential and commercial, interior floors and walls.

LATAPOXY™ 2000 Industrial Epoxy Grout (#2 unit) is highly chemical resistant epoxy grout formulated for use with industrial tile, ceramic tile, vitrified tile, pavers, floor brick and stone.

COVERAGE: Approximate sq.ft. coverage per # 1 unit (5 kg) of STELLAR™, SP-100™, SP-100™ DUO & Dazzle™ Grout. Double for LATAPOXY™ 2000 Industrial Epoxy Grout # 2 unit (10 kg).

Note: Joint width 1.5 mm is applicable for STELLAR™ & SP-100™ Grout only.

Tile Size X Thickness	Joint Width						
	1.5mm	2mm	3mm	4mm	6mm	8mm	10mm
100x100x3	342	264	177	133	90	68	55
